INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Najran Cement Company (A Saudi Joint Stock Company)
Najran - Saudi Arabia

Opinion

We have audited the consolidated financial statements of Najran Cement Company - A Saudi Joint Stock Company (the "Company") and its subsidiary (together "the Group"), which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs") that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with requirements of International Code of Ethics for Professional Accountants (including International Independence Standards), endorsed in the Kingdom of Saudi Arabia (the "Code"), that are relevant to our audit of the consolidated financial statements and we have fulfilled our other ethical responsibilities in accordance with the Code's requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report to the Shareholders of Najran Cement Company (A Saudi Joint Stock Company), Najran - Saudi Arabia (Continued)

Key Audit Matters (Continued)

Key audit matter	How the matter was addressed in our audit
Revenue recognition	
The Group has recognized revenue from operations amounted to SR 535 million. The Group recognizes the revenue at a point in time when control over the goods is transferred to the customer, generally on delivery of the goods. Revenue is considered as a key audit matter as this requires the management to establish the fact that control over goods is transferred at the time of delivery in accordance with "IFRS 15 - Revenue from contracts with customers", and that the variety of terms that define when control is transferred to the customer as well as the high volume of the transactions give rise to the risk that revenue is not recognized in the correct period. The Group focuses on revenue as a key performance measure which could create an incentive for revenue to be recognized before the control has been transferred.	Our audit procedures to assess the recognition of revenue included the following: - Assessed Group's revenue recognition policy and its compliance in terms of IFRS 15; - Assessed the design and implementation of controls related to revenue recognition; - Performed tests on selected samples by tracing the individual sales transaction to sales invoices, sales orders and other related documents. Further in respect of the samples tested, we checked that the revenue has been recognized as per the shipping terms; - Selected sample of revenue transactions made pre- and post-year end and agreed the period of revenue recognition to third party support such as transporter invoice and customer confirmation of receipt of goods; - Assessed journal entries posted to revenue to identify the unusual items; and - Assessed the adequacy of the related disclosures.
Refer to note (4) for the accounting policy and note (22) for related disclosures.	

Independent Auditor's Report to the Shareholders of Najran Cement Company (A Saudi Joint Stock Company), Najran - Saudi Arabia (Continued)

Key Audit Matters (Continued)

Key audit matter	How the matter was addressed in our audit
Existence and valuation of inventories	
The inventory of the Group includes raw materials and work in process amounted to SR 328,7million. This mainly includes Clinker, Bauxite and Iron ore which are stored in stockpiles in yards. As the weighing of these inventories is not practically possible, management appoints an external surveyor to assess the reasonableness of the quantities on hand by obtaining measurements of the stockpiles and converting these measurements to unit of volumes by using angle of induction and bulk density. Existence and valuation of inventories is considered as a key audit matter because of the significance of inventory balances and related estimations involved in determining the quantities.	Our audit procedures to assess the existence and valuation of inventory included the following: • Attended physical inventory counts performed by the Group and the external surveyor; • Evaluated the competence, capabilities and objectivity of the surveyor; • Obtained and reviewed the inventory count report of the external surveyor for major stock items on sample basis; • Assessed the reasonableness of management's measurements of stockpiles during the physical count and calculation of the conversion of stockpiles to the volumes; • Tested the valuation of year-end inventory including Net Realizable Value (NRV) on sample basis; and • Assessed the completeness and adequacy of disclosures relating to the inventories.
Refer to note (4) for significant accounting estimate and note (12) for related disclosure	

Independent Auditor's Report to the Shareholders of Najran Cement Company (A Saudi Joint Stock Company), Najran - Saudi Arabia (Continued)

Key Audit Matters (Continued)

Key audit matter	How the matter was addressed in our audit
Carrying value of property, plant and equipment	
As at 31 December 2024, the carrying value of property, plant and equipment amounted to SAR 2,030 million. Property, plant and equipment are stated at cost less accumulated depreciation, except land which is not depreciated. During 2024, the Group has changed the depreciation method from the reducing balance method to the straight-line method via retrospective restatement in accordance with IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" that is endorsed in the Kingdom of Saudi Arabia. The Group's management concluded that the use of the reducing balance method, related estimates and application in the past did not comply with the requirements of IAS 16 "Property, Plant and Equipment" as endorsed in the Kingdom of Saudi Arabia. We considered this to be a key audit matter given the significant estimates involved in determining the depreciation method. In addition to the materiality of the amounts involved.	Our Audit procedures included, among others, the following: • Obtained an understanding of the design and implementation of key controls over the depreciation process of property, plant and equipment. • Obtained an understanding of the Group's past depreciation method of reducing balance, related estimates and application. • Obtained the assessments prepared by the management and their experts regarding the past and new depreciation methods. • Evaluated the reasonableness of the assessments. This included: A) Assessing the competency, objectivity of the experts engaged by the Group. B) Testing the input data used in the assessments to the relevant supporting documents. C) Checking the mathematical accuracy of the data used in the assessments. • Assessed the adequacy of relevant disclosures in the Group's consolidated financial statements.
Refer to note (4) for significant accounting estimate and note (10) for related disclosure	

Independent Auditor's Report to the Shareholders of Najran Cement Company (A Saudi Joint Stock Company), Najran - Saudi Arabia (Continued)

Key Audit Matters (Continued)

Key audit matter	How the matter was addressed in our audit
Provision for obsolete spare parts	
As at 31 December 2024, the Group's gross carrying value of consumable spare parts inventory amounted to SAR 52,4 million, against which provision for obsolete spare parts amounted to SAR 7,6 million is maintained. The Group uses its professional judgment to determine the provision for obsolete spare parts using several factors including obsolescence, physical damage and aging. We considered this as a key audit matter due to the significant judgement required in development accounting estimate.	Our audit procedures included, among others, the following: - Assessed the appropriateness of the Group accounting policy for determining the provision for obsolete spare parts in accordance to the financial reporting framework. - Obtained an understanding of the procedures followed by the Group in determining the provision for obsolete spare parts. - Attended the physical inventory count of spare parts to observe the management procedures for identifying the obsolete and damaged items. - Verified the mathematical accuracy of the provision calculation. - Assessed the completeness and adequacy of related disclosures.
Refer to note (4) for significant accounting estimate and note (12) for related disclosure	

Other Matter

The consolidated financial statements of the Group for the year ended 31 December 2023 were audited by another auditor who expressed qualified opinion on those consolidated financial statements on 4 Dhu Al-Qi'dah 1445H (corresponding to 12 May 2024G). The qualifications in the predecessor's auditor report related to their assessment that the previous depreciation method of reducing balance has been applied incorrectly; in addition, they were unable to conclude on management's assessment of the provision for slow moving items of the consumable spare parts. For more details refer to note 32 to the accompanying consolidated financial statements.

Independent Auditor's Report to the Shareholders of Najran Cement Company (A Saudi Joint Stock Company), Najran - Saudi Arabia (Continued)

Other matter (Continued)

As part of the audit of the consolidated financial statements as at and for the year ended 31 December 2024, we audited the adjustments described in note 32 that were applied to restate the comparative information presented as at and for year ended 31 December 2023 and 2022. We were not engaged to audit, review or apply any procedures to the consolidated financial statements for the year ended 31 December 2023 and 2022 other than with respect to the adjustments described in Note 32 to the accompanying consolidated financial statements. Accordingly, we do not express any opinion or other form of assurance on the respective consolidated financial statements taken as a whole. However, in our opinion, the adjustments described in note 32 are appropriate and have properly applied.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditor report thereon. The annual report is expected to be made available to us after the date of this auditor report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, when made available to us, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA and Regulations for Companies and the Company's By-laws, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance i.e., the Company's Board of Directors are responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report to the Shareholders of Najran Cement Company (A Saudi Joint Stock Company), Najran - Saudi Arabia (Continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs that are endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report to the Shareholders of Najran Cement Company (A Saudi Joint Stock Company), Najran - Saudi Arabia (Continued)**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

1. CORPORATE INFORMATION

Najran Cement Company (“the Company” or “the Parent Company”), a Saudi Joint Stock Company, registered at Najran on 5 Ramadan 1426 (corresponding to 9 October 2005) under Commercial Registration number 5950010479. On 10 Shaaban 1437 (corresponding to 17 May 2016), the Company was granted an Industrial License, number 2446. The Company’s shares are listed in the Saudi stock market in the Kingdom of Saudi Arabia.

The principal activities of the Company are manufacturing of ordinary portland cement and cement resistant to salts.

These consolidated financial statements comprise the Company and its wholly owned subsidiary, Wasl Al Janub Land Transportation Company (together referred to as the “Group”).

The Subsidiary Company is registered as a limited liability Company at Najran was established on 23 Dhul- Hijjah 1441 (corresponding to 8 August 2020) under Commercial Registration number 5950119264. On 02 Shaaban 1442 (corresponding to 15 March 2023), the subsidiary company was granted transportation License, number 11/00007925.

The principal activity of the Subsidiary Company is transport of goods.

2. BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by the Saudi Organization for Chartered and Professional Accountants (“SOCPA”) (collectively referred to as “IFRSs as endorsed in KSA”).

The Group’s management has made an assessment of its ability to continue in as a going concern based on the current liquidity position and cash flow projections and do not have any material uncertainty that might raise doubt and management is satisfied that the Group has the necessary resources to continue and fulfill its obligations when they fall due in the ordinary course of business in the foreseeable future. Accordingly, these consolidated financial statements of the Group have been prepared on the going concern basis.

The new Companies’ Law was issued through Royal Decree M/132 on 1/12/1443H (corresponding to 30 June 2023) (hereinafter referred as “the Law”) came into force on 26/6/1444H (corresponding to 19 January 2024). For certain provisions of the Law, full compliance is expected not later than two years from 26/6/1444H (corresponding to 19 January 2024). The management assessed the impact of the new Companies Law and amended its Articles of Association to be consistent with the provisions of the Articles of Association of the new Companies Law. Accordingly, the amended Articles of Association were presented to the shareholders at the Annual Extraordinary General Assembly Meeting and were approved on 21 Jumada Al-Thani 1446 AH (corresponding to 22 December 2024 AD).

2.2 Basis of measurement

These consolidated financial statements have been prepared on a historical cost basis except for otherwise disclosed in the notes to the consolidated financial statements.

2.3 Functional and presentation currency

These consolidated financial statements are presented in Saudi Riyals (“SR”) which is also the functional and presentation currency of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

2. BASIS OF PREPARATION (Continued)

2.4 Basis of consolidation

These consolidated financial statements comprise the financial position and performance of the Parent Company and the following subsidiary (collectively referred to “the Group”) in which the Company exercises control as at 31 December 2024:

<u>Subsidiary name</u>	<u>Country of incorporation</u>	<u>Principal business activity</u>	<u>Effective ownership interest</u>	
			<u>31 December 2024</u>	<u>31 December 2023</u>
Wasl Al Janub Land Transportation Company (One person company)	KSA	Transportation of goods	100%	100%

The financial statements of the subsidiary are prepared for the same reporting period as that of the Group, using consistent accounting policies of the Group.

Control is achieved when the Group is exposed, or has rights, to variable returns from its transactions with the investee and has the ability to affect those returns through exercising its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its transactions with the investee.
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has control over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group’s voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income, and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated.

Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosure of contingent liabilities at the date of preparing the consolidated financial statements. Uncertainty about these assumptions and estimates could result in making material adjustments to the carrying amount of asset or liabilities affected in future years.

3.1 Critical judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

A) Component parts of property, plant and equipment

The Group's assets, classified within property, plant and equipment, are depreciated on a straight-line basis over their economic useful lives. When determining the economic useful life of an asset, it is broken down into significant component parts such that each significant component part is depreciated separately. Judgement is required in ascertaining the significant components of a larger asset, and while defining the significance of a component, management considers quantitative materiality of the component part as well as qualitative factors such as difference in useful life as compared to primary asset, its pattern of consumption, and its replacement cycle/maintenance schedule.

B) Determining the lease term of contracts with renewal and termination options - Group as lessee
The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset)

3.2 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the date of preparing the consolidated financial statements, that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the subsequent financial periods, are described below. The Group based its assumptions and estimates on parameters available at the date of preparing the consolidated financial statements. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

A) Allowance for expected credit losses of trade receivables

By adopting IFRS 9, the Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

3. CRITICAL JUDGEMENTS, SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS
(Continued)

3.2 Estimates and assumptions (Continued)

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 13.

B) Useful lives of property, plant and equipment

The Group's management determines the estimated useful lives of its property, plant and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

C) Provision for employees' defined benefits obligations

The cost of defined benefit liabilities regarding employee's end of service are determined using actuarial valuations. An actuarial valuation requires making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, the defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each annual reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, management considers the commission rates of corporate bonds in currencies consistent with the currencies of the post-employment defined liabilities with at least an 'AA' rating or above, as set by an internationally acknowledged rating agencies, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are removed from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality bonds. The mortality rate is based on publicly available mortality tables for the respective countries. Those mortality tables are subject to change only at intervals in response to demographic changes. Future salary increases are based on expected future inflation rates for the respective countries and future salary increases.

D) Zakat assessments

Provision for zakat and withholding taxes is determined by the Group in accordance with the requirements of the Zakat, Tax and Custom Authority ("ZATCA") and is subject to change based on final assessments received from the ZATCA. The Group recognizes liabilities for any anticipated zakat and withholding tax based on management's best estimates of whether additional zakat/taxes will be due. The final outcome of any additional amount assessed by the ZATCA is dependent on the eventual outcome of the appeal process which the Group is entitled to. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences could impact the consolidated statement of profit or loss in the period in which such final determination is made

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

**3. CRITICAL JUDGEMENTS, SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS
(Continued)**

E) Provision for spare parts

The Group holds spare parts inventory for the machinery of its plant held longer than one reporting period. This might impact the valuation of spare parts and involves judgment in estimating spares parts inventory provision. The Group has a policy to assess the appropriate level of provisioning for spare parts inventory items, which may be ultimately disposed or sold below cost as a result of obsolescence or the retirement of related machinery. This policy includes management's expectations for future utilization, disposal or sale plans for the spare parts.

F) Existence of inventories

Inventories comprise of purchased raw materials (limestone, sand, gypsum and iron ore) and work in progress (mainly clinker which are stored in purpose built shed and stockpiles). Since the weighing of these inventories is not practicable, management assesses the quantities on hand at the year-end by obtaining measurements of the stockpiles and converting these measurements to unit of volumes by using the angle of induction and the bulk density. In doing so, management appoints an independent surveyor to estimate the quantities by using certain scientific systematic measurements calculations and applying the density conversion methods which are applied for similar stock in the cement industry.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The following are the material accounting policies applied by the Group consistently in preparing its consolidated financial statements except for the new and amended standards and interpretations as disclosed in note 5 and 6

4.1 Current versus non-current classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/ non-current classification.

Assets

An asset is classified as current when:

- It is expected to be realized or intended to sell or consumed in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is expected to be realized within twelve months after the reporting period; or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Liabilities

A liability is current when:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

4.2 Foreign currencies

The Group's consolidated financial statements are presented in Saudi Riyals ("SR"), which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.2 Foreign currencies (Continued)

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange ruling at the reporting date.

All differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency, if any, are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of a gain or loss on change in fair value of the item.

4.3 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in the consolidated statement of comprehensive income in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

Intangible assets under development consist of costs incurred in relation to the development of software which will be eventually transferred to intangible assets. Intangible assets with indefinite useful lives (goodwill) are not amortized but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from the derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statement of profit or loss when the asset is derecognized.

Intangible assets represent computer software which have finite useful lives. The estimated rates of amortization of intangible assets are as follows:

Software	10 years
----------	----------

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.4 Property and equipment

Adjustment of Accosting policy and method of the depreciation and rates

Property, plant, and equipment, except for non-depreciable land, are presented at cost, net of accumulated depreciation and accumulated impairment losses, if any. Repair and maintenance expenses are expensed as incurred, while improvement expenses are capitalized.

Depreciation is provided for over the estimated useful lives of applicable assets using the straight-line method and considering appropriate residual values. The Group reviews the appropriateness of the depreciation rate, useful life, and residual values used for depreciation recognition on an annual basis.

The estimated annual depreciation rates for major assets are as follows:

	<i>Annual Useful life</i>
Land	<i>Not depreciated</i>
Right of use	Over the contract period
Buildings	10-45
Plant, quarry, machinery and other equipment	8-35
Vehicles	6-10
Furniture and fixtures, and office equipment	8-10
Assets held for future use (Strategic)	35
Computers	6.6
Capital work in process	Not depreciated

Capital work in progress includes all costs (including advance payments) that have not yet been reclassified into one of the asset categories mentioned above. Capital work in progress is reclassified as property, plant, and equipment once the relevant performance tests have been satisfactorily completed. No depreciation is charged on capital work in progress.

Accosting policy and method of the depreciation and rates used previously

In previous years, the Group applied the declining balance method for depreciation. However, during 2024, management determined that the declining balance method was not comply with the requirements of IAS 16 "Property, Plant, and Equipment", as adopted in the Kingdom of Saudi Arabia. Management conducted an internal reassessment of the useful lives of certain building categories and major machinery and equipment items to align them with depreciation method. The internal reassessment was conducted with an external expert, subcontractor who execute the project and expert technician in the company which will have a financial impact on the current and prior years (retrospectively). (Note 32) The annual depreciation rates were as follow:

	<i>Percentage</i>
Land	<i>Not depreciated</i>
Right of use	Over the contract period
Buildings	2.5%
Plant, quarry, machinery and other equipment	4%-15%
Vehicles	10%-25%
Furniture and fixtures, and office equipment	10%-12.5%
Assets held for future use (Strategic)	4%
Computers	15%
Capital work in process	Not depreciated

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)/

4.4 Property and equipment (Continued)

Capital Spare Parts

The accounting policy for the initial and subsequent recognition of major spare parts has been amended retrospectively (Note 32). Spare parts (critical - strategic) are recognized in accordance with IAS 16 "Property, Plant, and Equipment" when they meet the definition of property, plant, and equipment, as follows:

Critical spare parts are a part intended for use as original equipment, that is Likely to be a key Component /Important Part that should be kept available to ensure the continuous operation of production equipment. It is generally only used when failures occurs as not typically expected to used routinely. Depreciation of critical spare parts begins from the purchase date of the associated original equipment and is depreciated over its corresponding useful life within the operational unit.

Strategic spare parts are parts that must be available when needed and are purchased in advance due to planned replacement schedules (aligned with the scheduled maintenance program). They are intended to replace existing critical spare parts with new operational components. These items are considered "available for use" only at a future date. Depreciation of strategic spare parts begins from the purchase date of the associated original equipment and is depreciated over its corresponding useful life within the operational unit.

The Costs of periodic maintenance for an items are recorded in the carrying amount of property, plant, and equipment items if spare parts do not meet the criteria of recognition as property, plant, and equipment, These Cost are then included in inventory or recognized in the profit or loss statement when used.

4.5 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.5 Leases (Continued)

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate.

Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs).

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The unwinding component of finance cost is included in the consolidated statement of profit or loss.

The lease liabilities are presented as a separate line in the consolidated statement of financial position.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

4.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables, the Group initially measures a financial asset at its fair value and in the case of a financial asset not carried at fair value through profit or loss, fair value plus transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price and for other trade receivables, that contain a significant financing component, the Group adjusts the transaction price in respect to the significant financing component.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.6 Financial instruments (Continued)

A) Financial Assets (Continued)

Initial recognition and measurement (Continued)

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in consolidated statement of profit or loss when the asset is derecognised, modified, or impaired.

The Group's financial assets at amortised cost includes cash and cash equivalents, trade receivables, employee loans and margin on letter of credit.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired
Or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.6 Financial instruments (Continued)

A) Financial Assets (Continued)

Derecognition (Continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

B) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade payables, due to related parties and lease liabilities.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at amortized cost (loans and borrowings)

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the consolidated statement of profit or loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.7 Inventories

Inventories are stated at the lower of cost and net realizable value. The cost of inventories is principally based on the weighted average principle, and includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their existing location and condition.

Net realizable value represents the estimated selling price for inventories less the costs necessary to make the sale. Any impairment loss arising as a result of bringing the inventories at their net realizable value is recognized in the consolidated statement of profit or loss.

Consumable Spare Parts

Consumable spare parts are replacement components used in machinery or equipment, designed for regular use and disposal rather than long-term retention. These parts typically have a short life and require frequent replacement. which do not meet the recognition criteria for property, plant, and equipment are recorded under inventory and are subject to assessment for provision.

4.8 Cash and cash equivalents

Cash and cash equivalents balances comprise of cash at banks, cash on hand and short-term highly liquid deposits with original maturities of three months or less that are held for the purpose of meeting short-term cash commitments and are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

4.9 Employees defined benefits obligations

Short-term employee benefits

Short-term employee benefits are expensed as the related services are provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post-employment benefits

The Group's obligation under employee end of service benefit is accounted for as an unfunded defined benefit plan and is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods and discounting that amount. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognised immediately in OCI. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the subsequent defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in employee costs in the consolidated statement of profit or loss (refer to note 16).

4.10 Zakat

The Group (entities registered in Kingdom of Saudi Arabia only) is subject to the Regulations of the Zakat, Tax and Customs Authority ("ZATCA") in the Kingdom of Saudi Arabia. Zakat is provided for in accordance with the Regulations of the Zakat, Tax and Customs Authority (ZATCA) in the Kingdom of Saudi Arabia and on accruals basis.

The zakat charge is computed on the zakat base of the individual companies in the Group and is charged to consolidated statement of profit or loss and other comprehensive income. Any shortfall / excess on finalization of an assessment is accounted for in the year in which assessment is finalized.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.11 Value Added Tax ("VAT")

Revenues, expenses, and assets are recognized net of the amount of Value Added Tax ("VAT") except:

- Where VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to the ZATCA is included as part of receivables or payables in the consolidated statement of financial position.

4.12 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a consolidated asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss, net of any reimbursement.

Rehabilitation costs are provided for at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the relevant asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognised in the statement of profit or loss as a finance cost. The estimated future costs of Rehabilitation are reviewed annually and adjusted as appropriate.

4.13 Revenue from contracts with customers

The Group recognizes revenue from contracts with customers based on a five-step model as set out in IFRS 15- revenue from contracts with customers.

- Step (1) - Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations, and sets out the criteria to be met for each contract.
- Step (2) - Determine the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Step (3) - Determine the transaction price: The transaction price is the amount of consideration that the Company expects to receive in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties.
- Step (4) - Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.
- Step (5) - Revenue is recognized when (or whenever) the entity satisfies a performance obligation.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.13 Revenue from contracts with customers (Continued)

The Group satisfies a performance obligation and recognizes revenue when the customer obtains control of the goods at a specified point in time (i.e., when the goods are delivered and acknowledged), and the goods are sold at substantial retrospective discounts based on total sales over a 12-month period. Revenue from these sales is recognized based on the price specified in the contract less the estimated volume discounts. Accumulated experience is used to estimate and provide discounts using expected value and revenue is recognized to the extent reasonably probable that there will be no material reversal. The related liability (included under trade and other payables) is recognized for expected discounts on amounts payable to customers in respect of sales made during the year.

The Company sells bulk and packaged cement, under specific and independent sales invoices entered with the customers. There is no financing component present as sales are made either on cash or on term credit in line with market practice.

a) Sale of goods

For contracts with customers which the only obligation is going to be selling cement, revenues shall be recognized at the time in which control over asset is transferred to the customer at a specific point in time, which is usually at the delivery date.

The Group recognizes revenue at the point in time at which the customer obtains control of a promised asset and the entity satisfies the performance obligations. The Group considers the below mentioned indicators to assess the transfer of control of the promised asset:

- The Group has a present right to payment for the asset
- The customer has legal title to the asset
- The Company has transferred physical possession of the asset
- The customer has the significant risks and rewards of ownership of the asset
- The customer has accepted the asset

4.14 Other Income

Other income that are incidental to the Group's business model are recognized as income as they are earned or accrued. This represents profit from sale of scrapped inventory and other miscellaneous income.

4.15 Expenses

Cost of revenue

Cost of revenue represents all expenses directly attributable or incidental to the core operating activities of the Group.

Selling and distribution expenses

These include any costs incurred to carry out or facilitate selling activities of the Group. These costs typically include salaries of the sales staff, marketing, distribution, and logistics expenses.

General and administrative expenses

These are operational expenses which are not directly related to the sale of goods. These also include allocations of general overheads which are not specifically attributed to cost of revenue.

Allocation of overheads between cost of revenue, selling and distribution and general and administrative expenses, where required, is made on a consistent basis.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

4.16 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the Group (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

4.17 Cash dividend to shareholders of the Group

The Group recognized a liability to pay a dividend when the distribution is recognized and no longer at the discretion of the Group. As per the By-laws of the Company, a distribution is recognized when it is approved by the shareholders.

5. NEW STANDARDS, AMENDMENTS BUT NOT YET EFFECTIVE

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of Group's financial statements. The Group intends to adopt these new and amended standards and interpretations, if applicable when they become effective.

There are a number of standards, amendments to standards, and interpretations which have been issued by the IASB that are effective in future accounting periods that The Group has decided not to adopt early. The Group is currently assessing the impact of this new accounting standards and amendments. The most significant of these are as follows:

<u>IFRS</u>	<u>Summary</u>	<u>Effective date</u>
<i>Lack of Exchangeability (Amendment to IAS 21)</i>	On 15 August 2023, the IASB issued <i>Lack of Exchangeability</i> which amended IAS 21 <i>The Effects of Changes in Foreign Exchange Rates</i> (the Amendments). The Amendments arose as a result of a submission received by the IFRS Interpretations Committee (the Committee) about the determination of the exchange rate when there is a long-term lack of exchangeability. IAS 21, prior to the Amendments, did not include explicit requirements for the determination of the exchange rate when a currency is not exchangeable into another currency, which led to diversity in practice. The Committee recommended that the IASB develop narrow-scope amendments to IAS 21 to address this issue. After further deliberations, the IASB issued an exposure draft of the proposed amendments to IAS 21 in April 2021 and the final amendments were issued in August 2023. The Amendments introduce requirements to assess when a currency is exchangeable into another currency and when it is not. The Amendments require an entity to estimate the spot exchange rate when it concludes that a currency is not exchangeable into another currency.	1 January 2025
<i>Amendments to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments</i>	These amendments: - clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system; - clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion; - add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and - make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).	1 January 2026

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

5. NEW STANDARDS, AMENDMENTS BUT NOT YET EFFECTIVE (Continued)

IFRS	Summary	Effective date
IFRS 18, 'Presentation and Disclosure in Financial Statements'	This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to: - the structure of the statement of profit or loss; - required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and - enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.	1 January 2027
IFRS 19	Subsidiaries without public accountability: Disclosure	1 January 2027

6. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS EFFECTIVE IN THE CURRENT YEAR

A number of other new amendments to standards, enlisted below, are effective this year but they do not have a material effect on the Consolidated financial statements.

<u>IFRS</u>	<u>Summary</u>	<u>Effective date</u>
<i>Lease Liability in a Sale and Leaseback (Amendment to IFRS 16)</i>	The IFRS Interpretations Committee issued an agenda decision in June 2020 - <i>Sale and leaseback with Variable Payments</i>. This matter was referred to the IASB for standard setting for some aspects. The IASB issued the final amendments in September 2022. The Amendments provide a requirement for the seller-lessee to determine 'lease payments' or 'revised lease payments' in a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee.	1 January 2024
<i>Supplier Financing Arrangements (Amendment to IAS 7 and IFRS 7)</i>	On 25 May 2023, the IASB issued <i>Supplier Finance Arrangements</i>, which amended IAS 7 Statement of Cash Flows and IFRS 7 <i>Financial Instruments: Disclosures</i> (the Amendments). These Amendments arose as a result of a submission received by the IFRS Interpretations Committee (the Committee) about the presentation requirements for liabilities and associated cash flows arising out of supply chain financing arrangements and related disclosures. In December 2020, the Committee published an Agenda Decision <i>Supply Chain Financing Arrangements—Reverse Factoring</i> that addressed this submission based on the requirements in IFRS Accounting Standards existing at that time. During this process, the feedback from stakeholders indicated limitations of the then existing requirements to address important information needs of users to understand the effects of supplier finance arrangements on an entity's financial statements and to compare one entity with another. In response to this feedback, the IASB undertook a narrow-scope standard setting, leading to the Amendments. The Amendments require entities to provide certain specific disclosures (qualitative and quantitative) related to supplier finance arrangements. The Amendments also provide guidance on characteristics of supplier finance arrangements.	1 January 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

6. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS EFFECTIVE IN THE CURRENT YEAR
(Continued)

<u>IFRS</u>	<u>Summary</u>	<u>Effective date</u>
Amendment - Non-current Liabilities with Covenants (Amendment to IAS 1)	Subsequent to the release of amendments to IAS 1 Classification of Liabilities as Current or Non-Current, the IASB amended IAS 1 further in October 2022. If an entity's right to defer is subject to the entity complying with specified conditions, such conditions affect whether that right exists at the end of the reporting period, if the entity is required to comply with the condition on or before the end of the reporting period and not if the entity is required to comply with the conditions after the reporting period. The amendments also provide clarification on the meaning of 'settlement' for the purpose of classifying a liability as current or non-current.	<u>1 January 2024</u>
Classification of Liabilities as Current or non- Current (Amendment to IAS 1)	The IASB issued amendments to IAS 1 - Classification of Liabilities as Current or Non-current in January 2020, which have been further amended partially by amendments Non-current Liabilities with Covenants issued in October 2022. The amendments require that an entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement for at least twelve months after the reporting period. As a result of the COVID-19 pandemic, the Board deferred the effective date of the amendments by one year to annual reporting periods beginning on or after 1 January 2024.	<u>1 January 2024</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

10. PROPERTY, PLANT AND EQUIPMENT (Continued)

10.1 The allocation of depreciation expense between operating cost of revenue, selling and distribution expenses and general and administrative expenses is as follows:

	2024 SR'000	2023 SR'000
		<i>Restated, Note 32</i>
Cost of revenue (note 23)	94,842	89,916
Selling and distribution expenses (note 24)	551	419
General and administrative expenses (note 25)	1,087	817
Total	96,480	91,152

10.2 The plants are situated on land leased in Sulттana from Ministry of industry and Mineral Resources, for 30 Hijra years commenced on 11 Jumada II 1426H (corresponding to 17 July 2005). And land leased in Akfah from Najran Municipal for 25 Hijra years commenced on 21 Dhu al-Qi`dah 1428H (corresponding to 1 December 2007).

11 REHABILITATION PROVISION

The management of the Company conducted a study to estimate and calculate the costs of stabilizing the soil, rocky slopes and surfaces to be safe for humans and animals for the Company's quarry, based on the surroundings of the exploited areas in the quarry after the end of the mining period. A discount rate of 7.8% was used by the management to reflect the time value of money of obligation expected to be settled at the end of the mining term.

The provision for the rehabilitation of areas subject to a franchise license represents the present value of the expected cost of re-settlement of the Company's franchise site.

	31 December 2024 SR'000	31 December 2023 SR'000

Advances to suppliers	16,522	13,711
Prepaid expenses	5,590	9,778
Refundable custom duties - net	3,849	3,138
Other receivables	2,910	3,660
Total	28,871	30,287

15. CASH AND CASH EQUIVALENTS

	31 December 2024 SR'000	31 December 2023 SR'000
Cash on hand	397	293
Current account at banks	16,088	15,722
Total	16,485	16,015

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

16. EMPLOYEES' DEFINED BENEFIT OBLIGATIONS

The Group operates an unfunded employees' terminal benefit plan for its employees as required by the Saudi Arabian Labour Law. The movement in provision for end-of-service benefits for the year ended 31 December is as follows:

		31 December 2024	31 December 2023
	Note	SR'000	SR'000
Balance at beginning of the year		45,267	40,215
Current service cost		4,490	4,190
Interest cost		2,111	1,873
Amount recognised in profit or loss account		6,601	6,063
Re-measurement loss recognized in other comprehensive income	16.1	176	964
Benefits paid during the year		(4,360)	(1,975)
Balance at the end of the year		47,684	45,267

16.1 Re-measurements loss recognized in other comprehensive income for the year ended 31 December are as follow:

	31 December 2024	31 December 2023
	SR'000	SR'000
Impact of changes in financial assumptions	(51)	244
Impact of changes in demographic assumptions	-	-
Impact of experience adjustments	227	720
Total	176	964

16.2 Significant actuarial assumptions:

Below are the significant actuarial assumptions:

Key actuarial assumptions	31 December 2024	31 December 2023
Discount rate used	5,25%	4,65%
increase in salary for the next two years	5,25%	5%
Increase in salary for long term	5,25%	4,65%
Turnover	Moderate	Moderate
Demographic assumptions		
Retirement age	60	60

16.3 Sensitivity analysis:

Reasonably possible changes as to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	31 December 2024 (SR'000)		31 December 2023 (SR'000)	
	Increase	Decrease	Increase	Decrease
Discount rate (0.5% movement)	46,250	49,309	43,775	46,743
Future salary growth (0.5% movement)	49,360	46,188	46,423	44,063

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

17. LEASES

	31 December 2024 SR'000	31 December 2023 SR'000
Current portion of lease obligations	269	255
Non-current portion of lease obligations	1,827	2,103
Balance at end of year	2,096	2,358

The lease is represented in land leased in Akfah from Najran Municipal for 25 Hijra years commenced on 21 Dhu al-Qi`dah 1428H (corresponding to 1 December 2007).

The lease liabilities are secured by the related underlying assets.

The analysis by maturity of future lease payments at 31 December are as follows:

	< 1 year SR'000	1-5 year SR'000	>5 years SR'000	Total SR'000
As at 31 December 2024				
Lease payments	332	1,660	332	2,324
Less: future Interest	(63)	(155)	(10)	(228)
Net present values	269	1,505	322	2,096
As at 31 December 2023				
Lease payments	332	1,694	665	2,691
Less: Interest expense for future periods	(77)	(226)	(30)	(333)
Net present values	255	1,468	635	2,358

18. SHARE CAPITAL AND STATUTORY RESERVE

18.1 SHARE CAPITAL

The authorized share capital of the Group comprised 170 million ordinary shares stated at SR 10 per share. All shares are issued and fully paid. (31 December 2023: 170 million ordinary shares stated at SR 10 per share).

Treasury shares

On 22 Rabi' al-Awwal 1446H (corresponding to September 25, 2024), the Extraordinary General Assembly decided to purchase 17 million shares of the Group and retain them as treasury shares for a period of ten years from the date of the Extraordinary General Assembly's approval, due to the decline in the Group's share price in the market.

The financial solvency conditions stipulated in Paragraph (3) of Article (17) of the same regulation have been met, and a limited review assurance report has been issued by the external auditor.

On 21 Jumada al-Akhirah 1446H (corresponding to December 22, 2024), the Extraordinary General Assembly of the Group approved the purchase of these shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

18. SHARE CAPITAL AND STATUTORY RESERVE (Continued)

18.2 STATUTORY RESERVE

In accordance with the previous Companies Law in the Kingdom of Saudi Arabia, the Company had allocated a statutory reserve by transferring 10% of its net income to the statutory reserve until it reached 30% of the share capital. This reserve was not available for distribution during the year ended December 31, 2024.

The Group has updated its Articles of Association in accordance with the new Companies Law. Additionally, the Extraordinary General Assembly approved the transfer of the statutory reserve to retained earnings on 21 Jumada al-Akhirah 1446H (corresponding to December 22, 2024).

19. BORROWINGS

Long-term borrowing are secured and carries interest rate of SAIBOR plus margin is presented as follows:

19.1 Long term borrowing

	31 December 2024 SR'000	31 December 2023 SR'000
Principal amount, beginning balance	315,654	278,500
Draw-down during the year	-	80,000
Less: repayments during the year	(50,846)	(42,846)
Net principal amount	264,808	315,654

	<i>31 December 2024 SR'000</i>	<i>31 December 2023 SR'000</i>
Short term benefits	10,235	11,281
Post-employment benefits	483	321
	10,718	11,602

32. PRIOR YEARS ADJUSTMENTS

During 2024, management reassessed the accounting treatments of certain transactions and balances recorded in the consolidated financial statements of prior years to determine whether they had been accounted for in accordance with the International Financial Reporting Standards (IFRS) adopted in the Kingdom of Saudi Arabia. This reassessment was conducted in accordance with the requirements of IAS 8 "Accounting Policies, Changes in Accounting Estimates, and Errors", and the findings are as follows:

- a) In previous years, the Group used the declining balance method for the depreciation of property, plant, and equipment. During the year, management engaged an external expert and determined that using the declining balance method was not aligned with the industry in which the Group operates and was also not applied correctly in accordance with the requirements of IAS 16 "Property, Plant, and Equipment" as adopted in the Kingdom of Saudi Arabia. Consequently, management changed the depreciation method to the straight-line method retrospectively, with the impact reflected in the consolidated financial statements for prior years.
- b) During the year, management engaged an external expert to conduct a comprehensive review of spare parts recorded as inventory in the consolidated statement of financial position. The review identified a number of spare parts that meet the definition of property, plant, and equipment in accordance with IAS 16 "Property, Plant, and Equipment". As a result, management corrected the error by adjusting the impact on the consolidated financial statements for prior years.
- c) During the year, management identified various consumable spare parts recorded under property, plant, and equipment that do not meet the definition of property, plant, and equipment in accordance with IAS 16 "Property, Plant, and Equipment". Consequently, management corrected the error by adjusting the impact on the consolidated financial statements for prior years.
- D) The statutory reserve charge during the fiscal year ended 31 December 2023 has been retroactively adjusted to align to the adjusted net profit as of 31 December 2023.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

32. PRIOR YEARS ADJUSTMENTS (Continued)

The following is the impact of the amendments to the financial statements for the comparative year:

(1) Consolidated statement of profit or loss for the year ended 31 December 2023:

31 December 2023	Reported as at 31 December 2023	Reclassification	Restatement	Restated as at 31 December 2023

33. FINANCIAL INSTRUMENTS RISK MANAGEMENT

The Group finances its operations through equity and management of working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk. Taken as a whole, the Group is exposed to market risk (including profit rate risk, currency risk and other price risk), credit risk and liquidity risk. The Group's principal financial liabilities comprise trade and other payables. The main purpose of these financial liabilities is to raise finance for the Group's operations. The Group has various financial assets such as investments, trade and other receivables. The Group has various financial liabilities such as long-term financing, trade and other accounts payable including accrued liabilities.

The principal financial instruments used by the Group, from which financial instrument risk arises, are as follows:

- a) Trade receivables
- b) Cash and cash equivalents
- c) Trade and other payables
- d) Long term financing

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

33. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

Total	370,912	440,762

The Group is exposed through its operations to the following financial risks:

- Market risk
- Credit risk; and
- Liquidity risk

Financial risk management and objectives and policies

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: Interest rate risk, currency risk and other price risk.

(a) Interest rate risk

Profit rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market profit rates. The Group mitigates its risk against exposure through focusing on maintaining bank balances. As of the statement of financial position date the Group is exposed to profit rate risk on its borrowings.

During 2024 and 2023, the Group's borrowings at variable rate were denominated in SR. The Group analyses the interest rate exposure on a quarterly basis. A sensitivity analysis is performed by applying a simulation technique to the liabilities that represent major interest-bearing positions. Various scenarios are run taking into consideration refinancing, renewal of the existing positions, alternative financing and hedging.

33. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

Financial risk management and objectives and policies (Continued)

(a) Interest rate risk (Continued)

The table below reflects the possible change of 100 basis points in interest rates at the reporting date on profit or loss assuming all other variables are remained constant.

	<i>Profit / (loss) 2024</i>		<i>Profit / (loss) 2023</i>	
	<i>Decrease in basis points of related commission rates</i>	<i>Increase in basis points of related to commission rates</i>	<i>Decrease in basis points of related commission rates</i>	<i>Increase in basis points of related to commission rates</i>
	<i>100 bps</i>	<i>100 bps</i>	<i>100 bps</i>	<i>100 bps</i>
	<i>(SR'000)</i>	<i>(SR'000)</i>	<i>(SR'000)</i>	<i>(SR'000)</i>
Loans	2,973	(2,973)	3,385	(3,385)

(b) Currency risk

Currency risk arises from the possibility that changes in foreign exchange rates will affect the value of the financial assets and liabilities denominated in foreign currencies. The Group does not believe it is materially exposed to currency risk as the majority of the Group's transactions and the balances are denominated in Saudi Riyals or in US Dollars. US dollar rate is fixed with the Saudi Riyal. Certain transactions are in other currencies, but these are not material.

(c) Other price risk

Other price risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market prices. The Group is not exposed to any other risks.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company's credit risk is primarily attributable to its liquid funds and receivables. Cash balances are deposited with banks with good credit standings. Whilst a small number of customers account for a significant portion of both revenues and accounts receivable balances. These customers have provided appropriate guarantees ensuring that their debts will be recoverable. All major customers are high profile customers with the Kingdom of Saudi Arabia and there is no reason to suggest that there will be a loss of revenue from these sources.

The Group's maximum credit exposure are as follows:

	<i>31 December 2024</i>	<i>31 December 2023</i>
	<i>(SR'000)</i>	<i>(SR'000)</i>
Trade receivables	21,839	21,076
Prepayments and other receivables	28,871	30,287
Cash and cash equivalents	16,485	16,015
Total	67,195	67,378

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024

33. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

Credit risk (Continued)

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period.

Age of trade receivables aging as of 31 December is as follows:

	31 December 2024 (SR'000)	31 December 2023 (SR'000)
Not due yet	18,341	324
1-90 days	2,966	16,077
91-180 days	273	4,674
181-360 days	410	-
Over 360 days	1,601	2,295
Total	23,591	23,370

Age of impaired trade receivables as of 31 December is as follows:

	31 December 2024 (SR'000)	31 December 2023 (SR'000)
More than 360 days	1,601	2,295

Liquidity risk

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell financial assets quickly at an amount close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available. The concentrations of liquidity risk may arise from the repayment terms of financial liabilities, sources of borrowings or reliance on a particular market in which to realize liquid assets.

The following is the contractual maturities for financial liabilities at the end of the period and represented by growth amounts:

	Undiscounted contractual cash flows 31 December 2024			
	1 year or less SR'000	1 year to 3 years SR'000	3 years or more SR'000	Total SR'000

Accrued and other payables	55,994	-	-	55,994
	182,250	129,716	130,033	441,999

Capital management

The Group's objective when managing capital is to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders. and to maintain a strong capital base to support the sustained development of its businesses.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is 'net debt' divided by total capital plus net debt. The Group includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and short-term deposits.

The Group net debt to equity ratio was as follows:

	31 December 2024 (SR'000)	31 December 2023 (SR'000)
Total liabilities	434,378	503,954
Less: Cash and cash equivalents	(16,485)	(16,015)
Net liabilities	417,893	487,939
Total equity	2,042,315	1,974,062
Net liabilities to equity	0.20	0.25

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

33. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

Fair value measurement (Continued)

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All financial instruments for which fair value is recognised or disclosed are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

- Level 1: quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

If the inputs used to measure the fair value of an asset or liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest input level that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers among the levels during the period.

The management assessed that the fair value of cash and cash equivalents, trade and other receivables and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments. term loans carrying amount approximate fair value as it carries variables interest at the prevailing market rates.

34. EVENTS AFTER THE REPORTING PERIOD

There have been no significant subsequent events since the year ended 31 December 2024, which would have a material impact on the financial position of the Group as reflected in these consolidated financial statements.

35. APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

These consolidated financial statements were authorized for issue by the Group's Board of Directors on 15 Ramadan 1446H (corresponding to 15 March 2025).
